

ARE AFTER KERR

ANOTHER WIFE BEATER TO GO OVER THE ROAD.

Wife Gets a Thrashing and Takes the Children and Runs to Her Mother's Home on North Lawrence—Kerr Follows But Has to Skip—Warrant is Sworn Out for Mrs. Kerr Who Alleges That Mr. Kerr is Much on Work Except as He Leaves on It—Warrant in the Hands of Officer Russell.

A warrant was sworn out yesterday afternoon for C. H. Kerr, charging him with beating his wife with his fist and bruising her.

They reside at 315 North Fifth avenue. Kerr beat his wife about two o'clock in the morning. She had been ill during the day and at 2 o'clock in the morning she stepped out in the yard. She was gone more than half an hour, when he got up and went after her. He found Mrs. Kerr asleep. In the petition she alleges that he claimed she went out to meet a man, and he then and there proceeded to give her a beating.

Yesterday afternoon Mrs. Kerr left the house with her two little children and went to her mother's, Mrs. Ella Kemper, at 115 North Lawrence.

Mrs. Kerr then went before County Attorney Amidon and had a warrant sworn out for her husband.

She also had the petition drawn praying the court to allow her to be divorced from Kerr, and to keep the children. She alleges that Kerr has not supported her or her children, and that she has made the living by washing. She also claims that he would rather lean up against work than to pitch in and dispose of it.

About 4 o'clock yesterday afternoon Kerr came to the home of his mother-in-law and got in the house while the door was unlocked. They had been expecting him and had been keeping a lookout for him and also kept the door barred.

Mrs. Kemper is in the dining business and she had to unlock the door several times, and while it was unlocked he came in. He told them that he had come for the two children. They were afraid that he might lay "heavy hands" on them, so Mrs. Kemper ran to Mr. Derby's grocery and asked him to get a policeman quick.

He ran out on Douglas avenue and hit the electric car pole. This attracted a big crowd, who adjourned to the residence on Lawrence avenue. Only three men got in the house.

Kerr ran up Lawrence avenue when Mrs. Kemper started for a policeman. The warrant was put in Constable Jim Russell's hands and as soon as Kerr is caught he will be tried in Justice Walker's court.

Recently a woman in New York City, who went into a store to buy a well-known medicine, was persuaded to take something "just as good." She took it and died from the effects of it. A suit for damages is pending.

LAND OF PLENTY
Senator Marum of Oklahoma Gives Some Interesting Data.

Senator D. P. Marum, E. L. Wiggins, county treasurer and Eugene Hall, deputy United States marshal of the western district of Oklahoma, were all at the Carey from New York last night.

Senator Marum said that the Indians were all objecting to the law passed by the Oklahoma legislature which prohibited them from having more than one wife. At first the bucks were satisfied and so were the squaws. They did not care about polygamy, but now that the July interest money is to be paid out the bucks are complaining. Under the old law of thirty acres for each wife, the rate amount for the number of wives and children he had. Beginning on the first of the month the buck can only have the amount due for himself and wife with the lawful children of one wife. The traders have trusted the bucks for whatever suited his fancy. Now, without the interest money of his former wives and children he will be unable to pay what he owes. As a result the traders are stirring up strife and dissension among the Indians. The Indians do not care for polygamy in itself, but it is the money which the bucks are enabled to control and get from numerous wives and their children, that they now want the law changed. They call Governor Barnes "Little Father," and President McKinley "Big Father." Six of them camped on the "Little Father" doors-step the other morning and wanted him to change the law until after they get their interest money. The governor put them off by making an appointment with them. The law cannot be changed and the agents say it must be enforced. Just how the Indians will take the decision is hard to predict.

The senator said that there was an expert from the Chicago board of trade in Oklahoma getting agriculture statistics. The expert said that there were many fields in Oklahoma that would produce 55 bushels of wheat to the acre. The average for all over both territories would doubtless be 25 bushels to the acre. The average and yield will be larger than has heretofore been figured on.

"We will have undoubtedly a very large crop of both cotton and corn. There will be more peaches and watermelons than can be consumed by our people, and we will make large shipments to the big cities."

Western Oklahoma will have 50 per cent more cattle for shipment than any year since '93, and the cattle are of much finer grade, there being very few of the Texas long horns among them. As an illustration of the large business being done, he said the Santa Fe railroad had a net increase of \$70,000 in business over last year, with a decrease in expenses of \$200, with a lighter passenger traffic. All kinds of the gentlemen were enthusiastic over the abundance which overtops their land, saying that this is Oklahoma year. The gentlemen will leave this morning for their homes well pleased with their short visit in Wichita.

HE DIDN'T RETURN
Charley Wright Misses a Horse and Forgets to Return.

Charley Wright is a young man who formerly worked for Mr. Jake Orndorff just west of the Thirteenth street bridge. Last Monday he engaged a saddle horse from Charley Simmons at 2 o'clock in the morning to get out to Mr. Orndorff's. He returned later, paid his bill and departed. On Tuesday he repeated the performance, with the exception that he did not go to Orndorff's, nor did he bring the horse back to the stable.

He turned the animal loose and he was caught by the animal house on Lincoln street. He took the horse to the Emporia avenue stable and Mr. Simmons on foot got his horse yesterday.

The officers are now looking for Mr. Wright. Before he left he borrowed with out permission from his friend, Grant McGraw, a pair of shoes and a coat. The officers think they have him located and if they catch him he will be brought back to trial.

DIED YESTERDAY AT NOON
Mrs. Maria Norris Passed Away at the Home of Her Son.

Maria Norris, mother of S. W. Norris, the North Main confectioneer, died yesterday at the home of her son, 430 North Market street, at noon.

Mrs. Norris came out from Kentucky two weeks ago to visit her son's family, and was in the best of health. Last Tuesday she was taken suddenly very ill. She became gradually weaker from the start and was unconscious most of the time. She was 65 years old. The remains were taken to her home in Kentucky last night by her son.

Accept No Substitutes

When any one tells you he has "something just as good" as our "S. & M." brand of Improved Instant Powder it is well to look upon suspicion. Both the dealer and the article offered. We don't believe that such a powder exists; but suppose it does—Why not purchase a certainty in the form of "S. & M." It is just as good as it can be, and it needn't be any better.

TO SET ASIDE THE REPORT
Motion Filed in Court Concerning Leonard Estate.

A wrangle has set in over the estate of H. H. Leonard, for the murder of whom his wife is now serving a thirty-year sentence in the penitentiary.

A motion was filed in the probate court yesterday to set aside the report of the administrator because of some judgment or lien one of the heirs held against the property. Thornton Sargent takes up the case against the administrator.

MAKING AN INSPECTION
Missouri Pacific Officials Looking Over the Road.

W. C. Scott of St. Louis, general freight agent of the Missouri Pacific railroad, and Mr. L. S. Withers, superintendent of car service, are here on a tour of inspection of the Kansas branch lines.

In company with Division Superintendent Webb the party went over the Hutchinson and Genesee line yesterday and will probably go over the Conway Springs and Kiowa lines this week.

THAT FARE AGAIN
How the Whole Matter Figures Itself Out on Estimate.

That fake which was refused by the Eagle Tuesday morning, for the protection of our merchants, has called upon the job office for figures on one hundred. You that have subscribed on a basis of 5,000 can figure at your leisure how much you will be hoodwinked. The solicitor will have no trouble in getting some job printer (?) to make and receipt a bill for 5,000, notwithstanding he only prints 100, for that is one of the agreements that go with the job.

Thank Webb and Blackley.
To the management of the Missouri Pacific railway and especially to Superintendent A. H. Webb and General Passenger Agent E. E. Blackley, we desire through this means to express our thanks and appreciation of the elegant and efficient car service which we heartily enjoyed on our trip to Leavenworth and return on the occasion of the grand council meeting in May.

CAN'T LIVE ALWAYS

OLD AGE IS PROOF AGAINST EVEN THE WATER CURE.

Father Knapp, the World-Famous Apostle of Aqua Fum as a Fancie, Dies After a Long and Remarkable Career—William Knapp, Naval Secretary—Queen Victoria Arrives at Windsor, Looking First Rate—Redmond Registers His Anti-Jobilee Kick in the House of Commons, and Gets Mightily Left.

Munich, June 17.—The Rev. Father Knapp, known throughout the world for his water cure, who has been suffering for some time past, died at Woerthehofen.

Father Sebastian Knapp was born in the Bavarian village of Oetobern about 75 years ago. He was the son of a weaver. He was educated at the Catholic hospital in Augsburg where he attracted the attention of the Bishop of Augsburg, who obtained permission to educate him to the priesthood. When he was 15 years old he was attacked with nervous prostration and returned to the hospital. There in an old book he read an article on the efficacy of cold water as a cure for disease and began experimenting in his own case, eventually effecting a cure. When 25 years of age he entered the priesthood and was sent to the church of his native town, where he remained nine years, and in addition to attending to his priestly duties practiced the water cure and met with considerable success. Some forty-two years ago he was transferred from Oetobern to Woerthehofen, near Munich, where he continued to heal the sick by cold water cures and attracted much attention. In 1889 he wrote a book detailing his theory, and since that time his name and methods have become familiar throughout the world. By permission of his bishop he gave public lectures as a priest; and with the assistance of three other priests devoted all his time to healing the sick.

No fixed charges were made and the voluntary contributions of those who had been benefited paid for the construction of a sanitarium at Woerthehofen in 1890, capable of accommodating about 600 children. In the following year a second and a third building were erected, large enough to accommodate 1,200 priests and sisters for the church. In 1894 accommodation was added for 1,000 general patients. By this time the revenues of the sanitarium had so increased that they enriched the church and also greatly benefited Woerthehofen. The town was provided with electric lights, a splendid system of waterworks and many other modern improvements.

Father Knapp has treated many distinguished patients, including the emperor of Austria, the Archduke Joseph of Austria, several members of the Rothschild family and the pope. The sanitarium placed on American cattle preclude any material danger of loss by disease or otherwise. Official reports of experts in the field will be cited to demonstrate that American cattle products show a greater exemption from disease than those of practically all other countries. These representations will be accompanied by the significant warning that if the unjust discriminating measures are continued proper action will have to be taken by this government. Discriminating nations will be given to understand that the rights of American exporters must be recognized or else privileges according foreign producers withdrawn.

There is a high profit in substitution, aided by public indifference. There will be no profit at all if people, always and everywhere, refuse counterfeit articles.

PRINCETON HONORS GROVER
Confers Upon Him the Degree of Doctor of Laws.

Princeton, N. J., June 16.—Princeton's 15th annual commencement day exercises took place at 10:30 o'clock today.

Alexander Hall was thronged with visitors who attended not less in expectation of seeing an honorary degree conferred upon ex-President Cleveland, than to see the customary exercises.

On the speaker's stand President Patton and Mr. Cleveland occupied seats of honor.

Defining applause greeted Mr. Cleveland when he arose to be presented as a candidate for an honorary degree. Dr. Patton conferred the degree L. D. upon Mr. Cleveland, who spoke a few words in acknowledgment of the honor conferred.

Mr. Cleveland said: "I cannot forbear the expression of my profound appreciation of the honor conferred upon me and a confession of my gratitude for the warm welcome which greets my initiation into the brotherhood of Princeton university."

"When I recall the high place that Princeton occupies among the universities of the land, her proud history, her bright trophies won in the field of high education, her vital relation to the patriotic achievements which have helped to make the nation, I am proud of the honor which I have received at her hands. As I recall the sincerity and cordiality which accompanies this honor, I think that another life has been formed which binds me with closer affection and deeper feelings to the home where I expect to spend the remainder of my days."

WOODFORD FOR SPAIN
McKinley Decides to Give Him the Job if He Wins.

Washington, June 17.—Hon. Stewart L. Woodford of New York, the newly appointed minister to Spain, was today in consultation with the president, and formally accepted the office. Tonight Mr. Woodford dined with the president, Secretary and Mrs. McAlister, and Mrs. John A. Logan, who were guests.

The new minister declines to say what he intends to start for Madrid.

Mr. Woodford is an old friend of Senator Platt, who vigorously urged him for a cabinet position, trying to have him made secretary of the interior. Mr. Woodford has made a fortune in his law practice, and Republican friends today spoke of him as a natural diplomat. His nomination has been foreboded for some weeks.

The cabinet talked the matter over yesterday, and the president referred to several persons suggested for the post, and indicated that the preference was with Mr. Woodford. The question was brought up again today, and late this afternoon Secretary Bliss was called to the White House, and shortly after the nomination
